PRODUCT OBSOLETE ADVICE MPA MOTOR PROTECTION RELAYS

WHAT IS PLANNED FOR THE MPA RELAY?

As part of Ampcontrol's continual review of its broad product range, the MPA relay series is being phased out of production and will be made obsolete by December 2014.

This advance notice is provided to assist customers, and in particular current users, with timely management of this change.

Key dates for the MPA relay:

Last Time Buy: 30 September 2014
(final date to order a new relay)

Obsolete Date: 19 December 2014
(manufacture of new relays ceases)

Last Time Repair Date: 18 December 2015
(repair of used relays ceases)

PRODUCT SUPPORT

The MPA relay will continue to be supported for testing and repair until 18 December 2015, with technical support continuing via our Customer Service Team and Service businesses in NSW and QLD.

Ampcontrol is able to assist customers who wish to upgrade from these discontinued products, with the following alternative products available for consideration:

- IPM Relay
- IPD Relay.
