BACK BY POPULAR DEMAND

Expressions of Interest are now open for Transformer Management 1 training.

Ampcontrol is collaborating with SDMyers to run a four-day face-to-face Transformer Management 1 training* in Perth in March 2025, where we will have SDMyers professionals in Australia presenting.

This world-renowned training is an ideal professional development opportunity for the resources, infrastructure and energy sectors.

For the last few years, we have hosted this training on the East Coast and are seeking your interest in determining the final event details for the West Coast.

REGISTER NOW

If you are interested, please register here by Tuesday 31 December 2024.

* Continuing Professional Development (CPD)

Your attendance at this training course may be claimable towards your Continuing Professional Development. Check with your authorising body for full details.
